Child Outcomes

Three times per year we assess and report on each child's progress in the Head Start program. In summary, our goal is to find out what the children already know and use our assessment to make plans to teach them what they need to know to enter public school ready to learn. By having a detailed outcomes plan and implementing each part, we are able to form a strategy for each child's development process.

More at Four

Head Start partners with the state **More at Four** Pre-Kindergarten program. The additional funding that More at Four provides has enabled Head Start to lower child/staff ratios, purchase additional materials for classrooms, upgrade facilities and pay for higher qualified teachers, a proven indicator in helping children enter school ready to learn. 17 of our 22 Head Start classrooms are also More at Four sites with funding for 189 dually enrolled four-year old children.
